Manager's Report

Ken Hall

- Interior lighting upgrade is substantially complete. We replaced a lot of ceiling tile. Bruce Geier did the tile installation and the cost of the tiles will also be covered by the CRD grant.
- We are waiting for a quote from Burgess on upgrades to the heating & hot water in the compressor room and some other associated work. We will also have to get Dirty Mitts to upgrade their quote. This is also part of the CRD grant.
- CRD would prefer if we present them with one invoice when all work is complete.
- We need to organize a small work party to dismantle the existing ramp.
- Report for last year's Gaming grant has been sent to Lotteries.
- We have had no rentals and I don't expect any. It is likely that we will not have any of our Christmas parties in December since we are unlikely to be able to have over 50 people in the lounge. This will decrease both our rental income and our bar income. I will try to put a number to this for our next meeting.
- I expect we will be able to curl in the fall but our league schedules may need to be tweaked. The Phase 2 rules will likely allow us to operate the lounge for league play but unlikely to operate for bonspiels without finding a way to keep the capacity below 50.
