## Return to Curling Policy

### Coming to Curl:

- Be dressed to curl when you come through the doors of the club (no changing in the locker rooms).
- The club's web site will post the schedule and sheet assignments for the various leagues. We ask that you be aware of the schedule and the sheet you are to play on prior to coming to the curling club to curl.
- There will be staggered starts for the leagues to allow safer movement within the common areas (check your league schedules).
- Please come no earlier than 10 minutes prior to your start time.
- There will be a station as you come into the club located where you remove your outside shoes. You will be required to read the 'health declaration' and initial by your name for contact tracing needs.
- Masks will be worn while in the common areas within the club (this excludes the ice and when you sit at your table in the lounge).
- The common areas within the club will be marked with 2m physical distancing spots/'X' and direction arrows will be on the floor for you to

follow – we ask that you abide by this.

- The numbers of occupants for the bathrooms and locker rooms will be posted on the doors. There will be no changing in the locker room other than to obtain your curling gear (i.e. shoes, broom, gloves, etc.) from your locker and storing your winter clothing. After you obtain your curling gear and move to your respective seating area to put on your shoes and complete any stretching.
- You will be assigned areas to sit based on your sheet assignment. You will follow the arrows to your respective sitting area (each seating area will be designated and 'X' where you need to sit) put on your curling shoes and be ready to go on the ice.
- Always remember to 'physically distance'. The use of masks enables us to move within the common areas given some of the tighter spaces. Once on the ice physical distancing can be maintained so masks can be removed.
- You will see signs posted through out key areas on what you are to do prior to entering the ice surface, while playing on the ice and when you leave the ice.
- The success of the club through this COVID period rests in your hands.
